## OpenAIRE Explore

<https://explore.openaire.eu/>

Aktualizace: 11. prosince 2025

# Charakteristika

- **Open Access Infrastructure for Research in Europe.**
- Nástupce projektu DRIVER. Projekt zahrnuje několik částí.
- V systému lze hledat různé typy výsledků výzkumu (dokumenty, software, data).
- Portál zachycuje asi 206 mil. dokumentů.
- Záznamy lze stahovat pouze jednotlivě.

# Vyhledávací možnosti

- Není k dispozici help pro vyhledávání.

Ze zkušeností vyplývá:

- K zadání složitého dotazu za využití booleovských operátorů je nutné používat pokročilé vyhledávací rozhraní, nikoliv základní rešeršní masku.
- Systém sám hledá další tvary slov, stačí napsat kořen slov. Nepoužívat znaky pro rozšíření.
- Je možné používat oboustranné horní uvozovky pro fráze (pevná slovní spojení).

# Cesta k vyhledávací masce (1)

<https://www.openaire.eu/>

The screenshot shows the OpenAIRE website interface. The browser's address bar displays 'openaire.eu'. The navigation menu at the top includes 'Services' (highlighted with a red box), 'Training', 'Support', 'Community', 'Open Science In Europe', 'About Us', and 'Sign In'. The main content area is titled 'OpenAIRE Service Catalogue' and contains several sections:

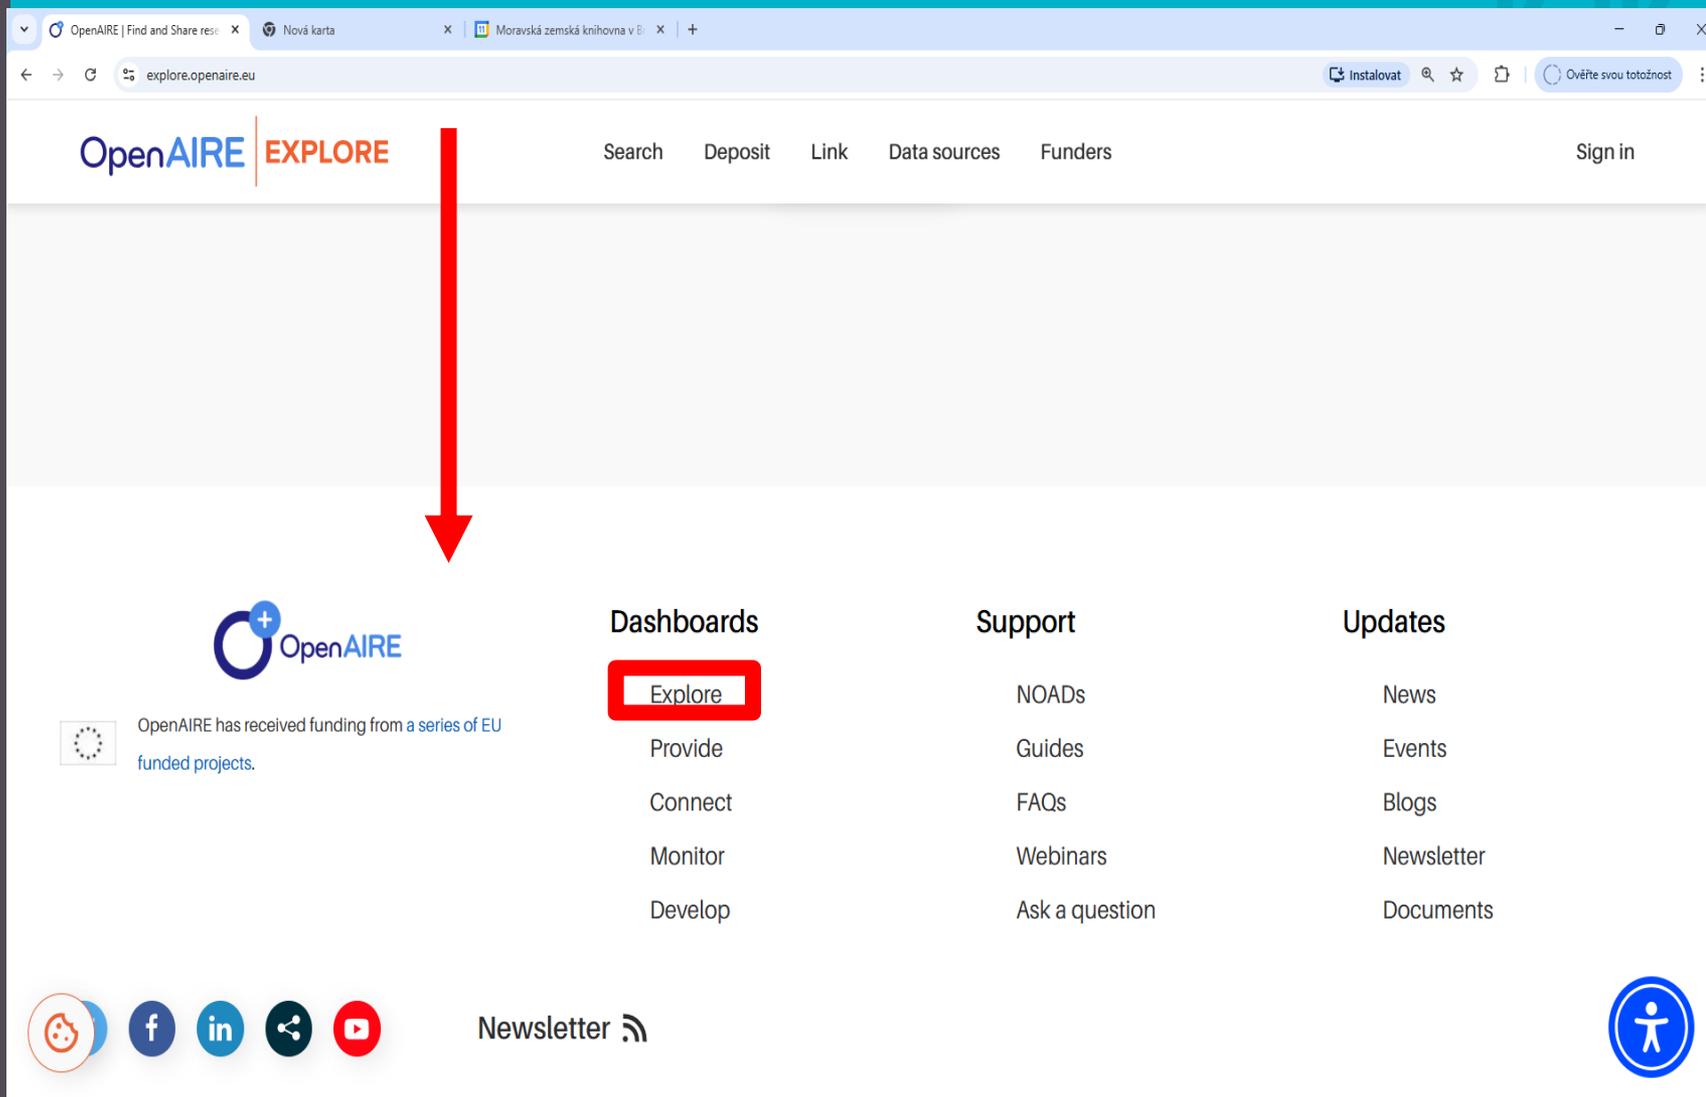

- OpenAIRE Service Catalogue**: A section with a description and a 'View' link.
- Shortcuts**: A list of shortcuts, with 'OpenAIRE.EXPLORE' (Discover research, find connections, claim your outputs) highlighted by a red box.
- OpenAIRE.PROVIDE**: Connect repositories, share knowledge.
- OpenAIRE.MONITOR**: Connect repositories, share knowledge.
- OpenAIRE.CONNECT**: Empower communities, showcase results.
- ARGOS**: Plan data, ensure FAIRness.

Other sections visible include 'Policies' (How to provide content, how to use our services and data), 'SLAs' (Levels of availability, serviceability, performance, operation), 'Services for Research Performing Organisations' (A bundle of services to help you transition to Open Science), and 'Services for University Alliances' (Services to support your members' collaboration).

At the bottom of the page, there are two buttons: 'Explore Services' and 'Join our Community'. The footer shows the URL 'https://explore.openaire.eu'.

# Cesta k vyhledávací masce (2)

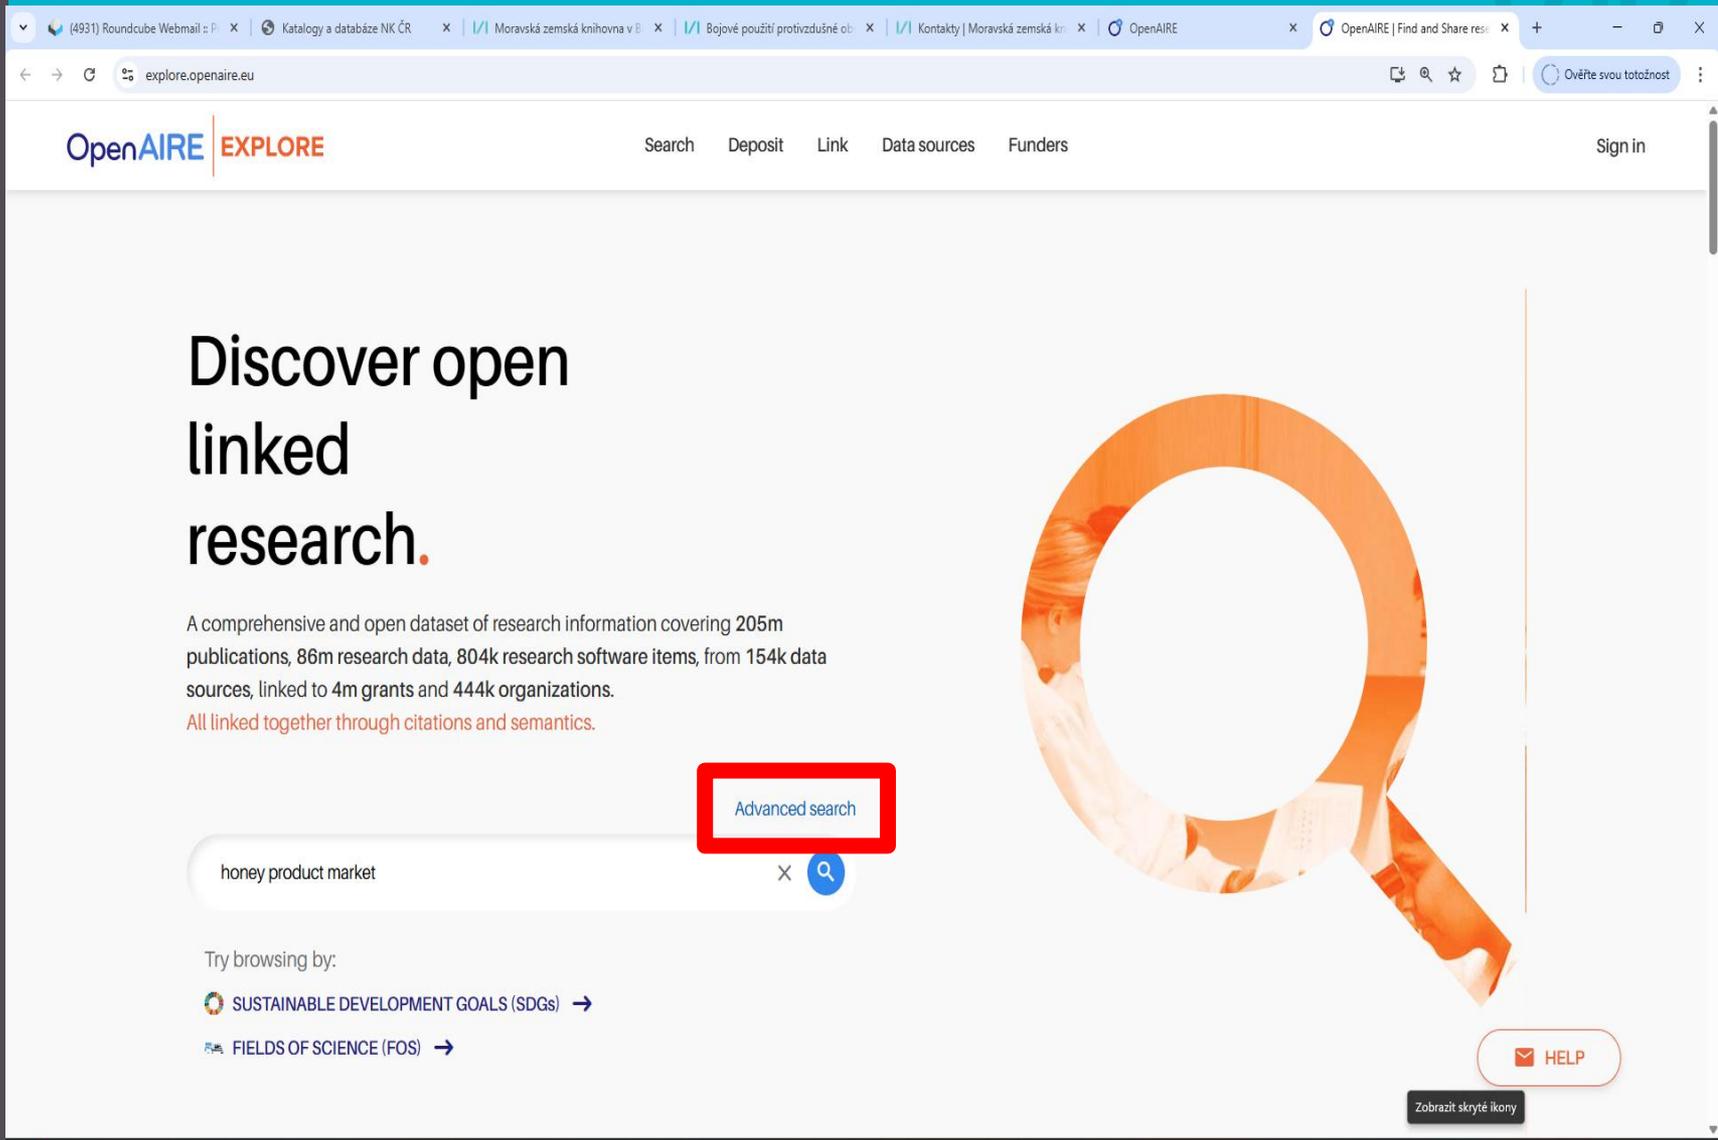

<https://www.openaire.eu/>

The screenshot shows the OpenAIRE website interface. At the top, there is a navigation bar with the OpenAIRE logo and the word "EXPLORE" in orange. To the right of the logo are links for "Search", "Deposit", "Link", "Data sources", and "Funders". Further right is a "Sign in" link. Below the navigation bar is a large white search bar. A red arrow points from the search bar down to the "Explore" link in the "Dashboards" section of the main content area. The "Dashboards" section includes links for "Explore", "Provide", "Connect", "Monitor", and "Develop". The "Support" section includes links for "NOADs", "Guides", "FAQs", "Webinars", and "Ask a question". The "Updates" section includes links for "News", "Events", "Blogs", "Newsletter", and "Documents". At the bottom of the page, there are social media icons for YouTube, Facebook, LinkedIn, and a share icon, followed by a "Newsletter" link with a RSS icon. A user profile icon is visible in the bottom right corner.

**Summary** | Subjects | Metrics

**Abstract**  
World economies are currently concerned about insufficient food supplies, food adulteration, and heavy reliance on manufactured foods. The study investigated the frequency of purchasing behaviors of organic honey and butter foods from the farmers' food product market in Debre Markos District, Northwest Ethiopia, to shed light on this issue. A cross-sectional survey of 353 sample consumers was conducted in the study area. Consumers who buy honey and butter at the farmers' market are chosen at random and interviewed using a structured questionnaire. Descriptive statistics and the Poisson regression model were used to analyze the data. The empirical results of the Poisson regression model revealed that socioeconomic characteristics of the consumer (gender, age, income, and education), product characteristics (quality, price, taste, adulteration, and risk), consumer trust, and knowledge all had a significant influence on the consumer's frequency of

# Vygenerování citace

The screenshot displays the OpenAIRE EXPLORER interface. At the top, the navigation bar includes 'Search', 'Deposit', 'Link', and 'Data sources'. A search bar contains the text 'Cogent Food & Ag...'. Below the search bar, a red box highlights the 'Cite' button in the top navigation area. A red arrow points from this button to a 'Cite this Publication' modal window. The modal window is also highlighted with a red border and contains the following information:

- Select a citation style:** apa
- Author:** Sileshi Yezerah, Abebe Jember, & Dessalegn Begni
- Title:** Honey marketing, structure and conduct of honey market in Gozamen district, East Gojjam Zone, and Amhara Region
- DOI:** 10.1080/23311932.2019.1620153
- COOPY CITATION** (button)
- Select file format to download:** pdf
- DOWNLOAD** (button)

The background page shows the publication details for 'Honey marketing, structure and conduct of honey market in Gozamen district, East Gojjam Zone, and Amhara Region' by Sileshi Yezerah, Abebe Jember, and Dessalegn Begni. It includes a summary, abstract, and related organizations like Bahir Dar University. On the right side, there is a blue box with statistics: Citations (3), Popularity (AVERAGE), Influence (AVERAGE), and Impulse (AVERAGE). Below this, it lists 'Fields of Science (5)' including agricultural and veterinary sciences, agriculture, forestry, and fisheries.

# EOSC – EU Node – Resource hub

<https://open-science-cloud.ec.europa.eu/resources/publications>

The screenshot shows the EOSC Resource Hub interface. At the top, there's a search bar with 'artificial intelligence' entered. Below the search bar, there are navigation tabs for 'All resources', 'Publications', 'Data', 'Software', 'Other Products', 'Services', 'Data Sources', and 'Training'. The 'Publications' tab is selected. On the left side, there are filter options for 'Access right', 'Scientific domain', 'Document type', 'Publication date', and 'Funder'. The main content area shows 'Showing 1 to 20 of 243,469 resources'. A dropdown menu is set to 'Relevance'. The first result is a publication titled 'Ontološko-epistemološke in etične zagate, povezane z umetno inteligenco' by Manja Skočir, published by the Repository of the University of Ljubljana. The publication is categorized as 'PUBLICATION', 'MASTER THESIS', and 'OPEN ACCESS'. It has 0 views, 0 downloads, and 0 citations. The abstract mentions that the thesis addresses ontological, epistemological, and ethical questions related to artificial intelligence.
