Abstract

This qualitative study aimed to explore how teachers of English perceive the advantages and disadvantages of using artificial intelligence by Saudi students who study English as a Foreign Language. The study used semi-structured interviews to delve into teachers' pedagogical beliefs, ethical concerns, and expectations regarding using artificial intelligence tools by Saudi students, using the College of Languages and Translation at Al-Imam Mohammed Bin Saud Islamic University as a case study. The main research question focused on examining the positive and

Navigating the dangers of Artificial Intelligence

Authors: [Daniel Harris](#) (Author)

Thesis, Dissertation 2025

[Montreal] : McGill University Libraries, [2025]

Open access

Abstract: "In academia there has been a notable increase in the attention being paid to artificial intelligence (AI) governance. There is an emerging worry among researchers that if AI systems continue along a trajectory of rapid advancement, then they could present a danger to humanity. Among the possible future directions of AI development that could pose a threat, artificial

HAL open science

Základní vyhledávání

The screenshot shows the HAL open science website with a browser interface. The address bar shows 'hal.science'. The page features four main columns of text describing the platform's benefits:

- An international scope**
Your publications are easy to find, well referenced by search engines and interconnected with other services (ORCID, preprint servers)
- A common good for research**
The largest research organizations and the majority of French universities have chosen and support HAL, a public, sustainable and responsible infrastructure.
- A large collaborative community**
From the researchers to the specialists of the scientific information, HAL federates multiple skills to support the opening of the publications
- An archive, some services**
HAL guarantees the long-term preservation of your publications. A set of services (CV, institutional portals, collections, documentary watch, APIs, identifiers) contribute to their valorisation.

1 675 833 scientific papers, **4 531 519** references

Imaginace jinakosti a přehlídky lidských "kuriozit" v Praze v 19. a 20. století [cs](#) [en](#) [fr](#)
Filip Herza (1, 2)
[Show details](#)

1 CEFRES - Centre Français de Recherche en Sciences Sociales
2 Faculty of Humanities, Charles University, Prague

Abstract [cs](#) [en](#) [fr](#)
Práce se zabývá tradicí vystavování lidských „kuriozit“ v Praze a českých zemích v širším kontextu moderních diskurzů nezpůsobilosti a představ o kolektivním těle českého národa. Pražské přehlídky „liliputů“, „obrázů“, „siamských dvojčat“ a dalších „abnormit“ jsou zde zasazeny do širšího rámce vývoje zábavní kultury v Evropě od počátku 19. století. Těžiště práce spadá do období přelomu 19. a 20. století, do období rozvoje mezinárodního zábavního průmyslu na jedné straně a expertního vědění o ab/normálním na straně druhé. Jak tvrdím, přehlídky „kuriozit“ čerpaly svou popularitu především ze schopnosti artikulovat určité obavy a touhy, spojené jak s vtělenou existencí jednotlivých návštěvníků, tak s jejich představami o tělech společenských, především s imaginacemi kolektivního těla českého národa. Ve čtyřech případových studiích ukazují, jak performance „kuriozních“ těl propojovaly dobové imaginace o etnických, genderových a třídních diferencích a umožňovaly tak v různých historických kontextech reprodukovat představy o společenském řádu a mocenských hierarchiích, které se odrážely rovněž v představě kolektivního těla národa.

Accueil Consulter Documentation HAL

HAL Thèses

Le serveur HAL Thèses a pour objectif de promouvoir l'auto-archivage en ligne des thèses de doctorat et habilitations à diriger des recherches (HDR), qui sont des documents importants pour la communication scientifique entre chercheurs. HAL Thèses est un environnement particulier de HAL et permet donc, comme HAL, de rendre rapidement et gratuitement disponibles des documents scientifiques, mais en se spécialisant aux thèses de doctorat et HDR. Le CCSD n'effectue aucune évaluation scientifique des thèses ou habilitations déposées, puisque c'est le rôle du jury.

Cette plateforme est également accessible via les outils d'interrogation de l'OAI (Open Archives Initiative), en utilisant l'URL api.archives-ouvertes.fr/oai/tel du protocole OAI-PMH.

Understanding misinformation and fighting for information en fr

Sacha Yesilaltay (1)

[Show details](#)

1 IJN - Institut Jean-Nicod

Abstract en fr

Americans are more worried about misinformation than about sexism, racism, terrorism, and climate change. Fears over misinformation on social media are overblown. Misinformation represents a minute proportion of the news that people consume online (~ 1%), and a small minority of people account for most of the misinformation consumed and shared online. People, on average, are good at detecting fake news and identifying reliable sources of information. People do not believe everything they see and read on the internet. Instead, they are active consumers of information who domesticate technologies in unexpected ways. It's very unlikely that social media exacerbates the misinformation problem, that fake news contributes to important political events or that falsehoods spread faster than the truth. Yet, some fake news stories do go viral, and understanding why, despite their inaccuracy, they go viral is important. In a series of experiments, we identified a factor that, alongside accuracy, drives the sharing of true and fake news: the 'interestingness-if-true' of a piece of news, e.g. if alcohol was a cure against COVID-19, the pandemic would end in an unprecedented international booze-up. In three experiments (N = 904), participants were more willing to share news they found more interesting-if-true, as well as news they deemed more accurate. They rated fake news less accurate but more interesting-if-true than true news. People may not share news of questionable accuracy by mistake, but instead

- Nelze vytvářet složité dotazy pomocí různých operátorů a závorek.

IRDB

Jednoduché vyhledávání

The screenshot shows a web browser window with the URL `irdb.nii.ac.jp/en`. The browser's address bar and tabs are visible at the top. Below the browser window, the IRDB logo is displayed next to the text "学術機関リポジトリデータベース" and "Institutional Repositories DataBase". A search bar contains the text "motivation students". To the right of the search bar is a "Search" button. Below the search bar, a red rectangle highlights a filter bar with two options: "All" (which is selected and highlighted in dark blue) and "Fulltext". To the right of the filter bar is a link for "Advanced Search".

SHODHGANGA

Charakteristika

- <https://shodhganga.inflibnet.ac.in/>
- Umožňuje přístup k plným textům více než 697 00 doktorských prací (Ph.D.) z **indických** univerzit.
- Od r. 2009 povinnost ukládat PhD práce do databáze.

SHODHGANGA

Vyhledávací možnosti

Lze používat:

- * pro pravostranné rozšíření,
- oboustranné horní uvozovky pro frázi,
- operátory AND, OR, NOT (psát velkými písmeny).

Určité výrazy jsou při vyhledávání ignorovány, např. předložky a spojky.

SHODHGANGA

Vyhledávání

The screenshot shows the Shodhganga website interface. At the top, there's a browser window with the address bar showing 'shodhganga.inflibnet.ac.in'. Below the browser window, the website header features the Shodhganga logo on the left, which includes the text 'Shodh ganga' and 'a reservoir of Indian theses'. On the right, there's a magnifying glass icon with the text 'Indian Electronic Theses & Dissertations' and the INFLIBNET logo. Below the header is an orange navigation bar with links: HOME, ABOUT US, SEARCH & BROWSE, MoE/UGC NOTIFICATION, GUIDE & TUTORIALS, DOWNLOAD, LOGIN, and a language selector (अ, A). The main content area features a large banner with a blue background and a photo of a person reading a book. The banner text reads: 'Shodh ganga a reservoir of Indian theses', 'Uploading of 6,00,000th Thesis into Shodhganga Repository on Wednesday | May 07 | 2025 at 11.15AM by Prof. Devika P. Madalli Hon'ble Director, INFLIBNET Centre'. A red ribbon graphic is at the bottom of the banner with a 'Launch' button. Overlaid on the banner is a search bar with the text 'soil AND (erosion OR degradation)'. Below the search bar are three buttons: 'Advanced Search', 'Subject Search', and 'Google Search'. The search bar and buttons are enclosed in a red rectangular box.

or, INFLIBNET Centre, **Prof. Devika P. Madalli**, marked this occasion by uploading the **6,00,000th thesis** to the repository on **7th May 2025**.

SHODHGANGA

Výsledky – možnosti zpřesnění

The screenshot shows the Shodhganga website interface. The search query is "soil*+AND+(erosion*+OR+degradation*)&go=". The search results are displayed in a table with columns: Upload Date, Title, Researcher, and Guide(s). The results are sorted by Relevance in descending order. A red box highlights the "Add filters" section, which includes a dropdown menu for "Language" (currently set to "English") and a "Sort items by" dropdown (currently set to "Relevance"). A red arrow points to the "Language" filter.

Fraunhofer-Publica

Charakteristika

- <https://publica.fraunhofer.de/home>
- Zachycuje publikační činnost a patenty Fraunhoferovy společnosti v Německu. Jedná se o největší evropskou organizaci zabývající se aplikovaným výzkumem. Asi 7 800 vědců pracuje v 77 ústavech.

Fraunhofer-Publica

Vyhledávací možnosti

- Lze používat:
 - * na konci slova (pravostranné rozšíření),
 - oboustranné horní uvozovky pro frázi,
 - operátory AND, OR, NOT,
 - kódy polí:

<http://publica.fraunhofer.de/starweb/pub09/feldkuerzel.htm>

Příklad: author=Novak.

- ä, ö, ü, ß lze také zapsat jako ae, oe ue, ss.

Fraunhofer-Publica

Základní vyhledávání

The screenshot shows the Fraunhofer-Publica website interface. At the top, there is a browser window with the address bar showing 'publica.fraunhofer.de/home'. The website header includes the Fraunhofer logo and the text 'Fraunhofer-Gesellschaft'. A navigation bar contains links for 'RESEARCH OUTPUTS', 'PROJECTS', 'RESEARCHERS', 'INSTITUTES', and 'STATISTICS'. A search bar is located in the top right corner, containing the query 'nano* toxi*' and a magnifying glass icon. Below the search bar, there is a large blue banner with the text 'FRAUNHOFER-PUBLICA' and a description of the platform. A privacy notice is visible in the bottom right corner, stating that personal information is collected for authentication, preferences, acknowledgment, and statistics, with links to 'Customize', 'Decline', and 'That's ok'.

Prioritising nano- and microparticles: identification of physicochemical properties relevant for toxicity to *Raphidocelis subcapitata* and *Daphnia magna*

(2022-12-12) Hund-Rinke, Kerstin ; Broßell, Dirk ; Eilebrecht, Sebastian ; Schlich, Karsten ; Schlinkert, Ruben ; Steska, Tim ; ...

with previous observations on **nanomaterials**. Based on the identified criteria, charts were developed to indicate the expected **toxicity** of advanced/innovative materials toward algae and daphnia. Conclusion: Indicators for the **toxicities** of advanced materials..., there are concerns about unexpected hazards to humans and the environment. In thi...

Effects of wastewater-spiked nanoparticles of silver and titanium dioxide on survival, growth, reproduction and biochemical markers of *Daphnia magna*

(2022-09-15) Galhano, Victor ; Zeumer, Richard ; Monteiro, Marta S. ; Knopf, Burkhard ; Meisterjahn, Boris ; ...

Silver (Ag) and titanium dioxide (TiO₂) **nanoparticles** (NPs) are released into aquatic environments through wastewater treatment plants (WWTPs). Even though these NPs are mostly retained in WWTPs, a small fraction can be found in released effluents... metabolism and detoxification pathways caused by the effluent indicate...

Prioritising nano- and microparticles: identification of physicochemical properties relevant for toxicity to <i>Raphidocelis subcapitata</i> and <i>Daphnia magna</i>		STATISTICS	
Abstract		 	
Background: Advanced/innovative materials are an undefined group of nano- and micro-particles encompassing diverse material compositions, structures and combinations. Due to their unique properties that enable specific functions during applications, there are concerns about unexpected hazards to humans and the environment. In this study, we provide... Open Access Search

To promote the sustainable dissemination, accessibility, and visibility of open-access publications from TU9 Universities with their strong research capabilities, the TU9 Libraries made their open-access content searchable. All nine universities operate repositories in which more than 200,000 scientific documents can be downloaded free of charge.

Titel:	Traceability for privacy: A foundational pillar for an effective and competitive EU digital rulebook
Autoren:	Pathak, Maitrayee
Description:	The European Union has established a comprehensive digital rulebook (GDPR, DSA, DMA, DGA, Data Act, AI Act), to develop a digital single market that respects fundamental rights. An investigation into this legal framework, however, reveals significant barriers to its effectiveness, including inconsistent enforcement, "gold-plating," and a burdensome compliance landscape for SMEs. This paper's analysis...
