E-books in Your Classroom

Tablets and computers are becoming more commonplace in our classrooms and *Oxford Learner's Bookshelf* brings you Oxford University Press coursebooks and workbooks in tablet ready form. However do tablets benefit the teaching and learning process?

In this hands on session we will give you a chance to discover the features and benefits of e-books and demonstrate how they can improve the classroom experience for learners and teachers alike.

Gareth Davies is a teacher and teacher trainer based in Prague, Czech Republic. He has been involved in the ELT industry since 1995 teaching in Portugal, Spain, the Czech Republic and the UK. From 2001 to 2008 he ran a Trinity CertTESOL course and since 2005 has been developing and delivering teacher training for Oxford University Press. Gareth also contributes to some OUP material including local editions of *Headway* and *Solutions*. Gareth has recently completed a 3 month sabbatical teaching in San Sebastian where he reminded himself about the challenges of teaching groups of teens.
