# Global Brand Database

## Help

The Global Brand Database page lets you easily search multiple brand-related data sources and receive instant feedback, letting you explore the brand landscape in a new and powerful way. The page itself is divided into 5 areas:

1. The [Search By](#) area lets you specify specific terms you want to search for, divided into separate tabs for easy access. Each field supports the same set of [operators](#) and [wildcards](#), and provides [automatic suggestions](#) for terms that may match what you are typing. For more specific information about the specific search capabilities of each tab, see the help for each individual tab: [Brand](#), [Names](#), [Numbers](#), [Dates](#), [Class](#) and [Country](#).
2. The [Filter By](#) area displays the number of records matching your current criteria, and lets you narrow your search to only particular areas of interest. You can filter by [Source](#), [Image](#), [Status](#), [Application Date](#), [Expiration Origin](#), [Designation](#), [Nice Class](#) or [Registration Date](#).
3. The [Menu](#) area lets you view and manipulate your [saved searches](#), [record sets](#) and other specialized functions.
4. The [Current Search](#) area displays your current search terms and filters, and lets you manipulate each item individually, deleting it, or dragging onto each other to combine terms into a new search.
5. The [Search Results](#) area displays the records matching the criteria shown in the [Current Search](#) area. Here you can easily browse through your result set, change your sort order or change your [display parameters](#).  
Clicking on an individual result will switch to [Record View](#) mode, where you can see more specific details regarding each record.

You'll notice that each time you enter a new search term or filter, both the list in the [Search Results](#) area and the numbers shown in the [Filter By](#) area are immediately updated to reflect your change, allowing you to quickly narrow your search to particular areas of interest, or spot trends and correlations you might have missed.

Each area of the page contains a small help icon to link you directly to details specifically about that area, with in-depth explanations of the contents and functionality provided. If you run into any problems, or have questions not addressed in this help file or the [FAQ](#), don't hesitate to [contact us](#) with your question.
