Hague Express Database

The Hague Express Database updated weekly, includes bibliographical data and, as far as international registrations governed exclusively or partly by the 1999 and/or by the 1960 Act(s) of the Hague Agreement are concerned, reproductions of industrial designs relating to international registrations that have been recorded in the International Register and published in the International Designs Bulletin as of issue No. 1/1999. International registrations that have lapsed are not removed from the database.

While every effort is made to ensure that this information accurately reflects the data recorded in the International Register, the only official publication remains the Bulletin and the only official statements by the International Bureau regarding the contents of the International Register for a given international registration are those published in the Bulletin and on request by the International Bureau.
