15:00 – 15:30 Coffee break

15:00 – 16:00 Seminar 2

**Gareth Davies: Getting the benefits using Headway 4th edition**

*How does technology benefit your classroom? How do you know what technology you can trust and how it will help your students learn English?*

In this session we will look at how technology can help when preparing and teaching lessons and also help your students with homework and self-assessment by looking at the complete digital package that comes with the world's most trusted course book - Headway.

**Chris Jory: Teaching Pronunciation with English File third edition.**

Teaching pronunciation helps students to improve both their listening and their speaking skills. Understanding the differences between /l/ and /i:/, how to recognise word or sentence stress, or the features of connected speech helps students to have more confidence when listening and more clarity when speaking. In this workshop we will look at the different features of pronunciation and how English File third edition helps to get students speaking by improving their pronunciation skills.

If you would like to attend, please register on-line:
