# OpenAIRE

## Charakteristika

- **Open Access Infrastructure for Research in Europe.**
- Nástupce projektu DRIVER. Projekt zahrnuje několik částí.
- Portál umožňuje vyhledávání ve 124 milionech záznamů asi z 10 000 zdrojů, z toho asi 56 mil. s otevřeným přístupem.
- V systému lze hledat různé typy výsledků výzkumu (dokumenty, software, data).

# OpenAIRE

## Vyhledávací možnosti

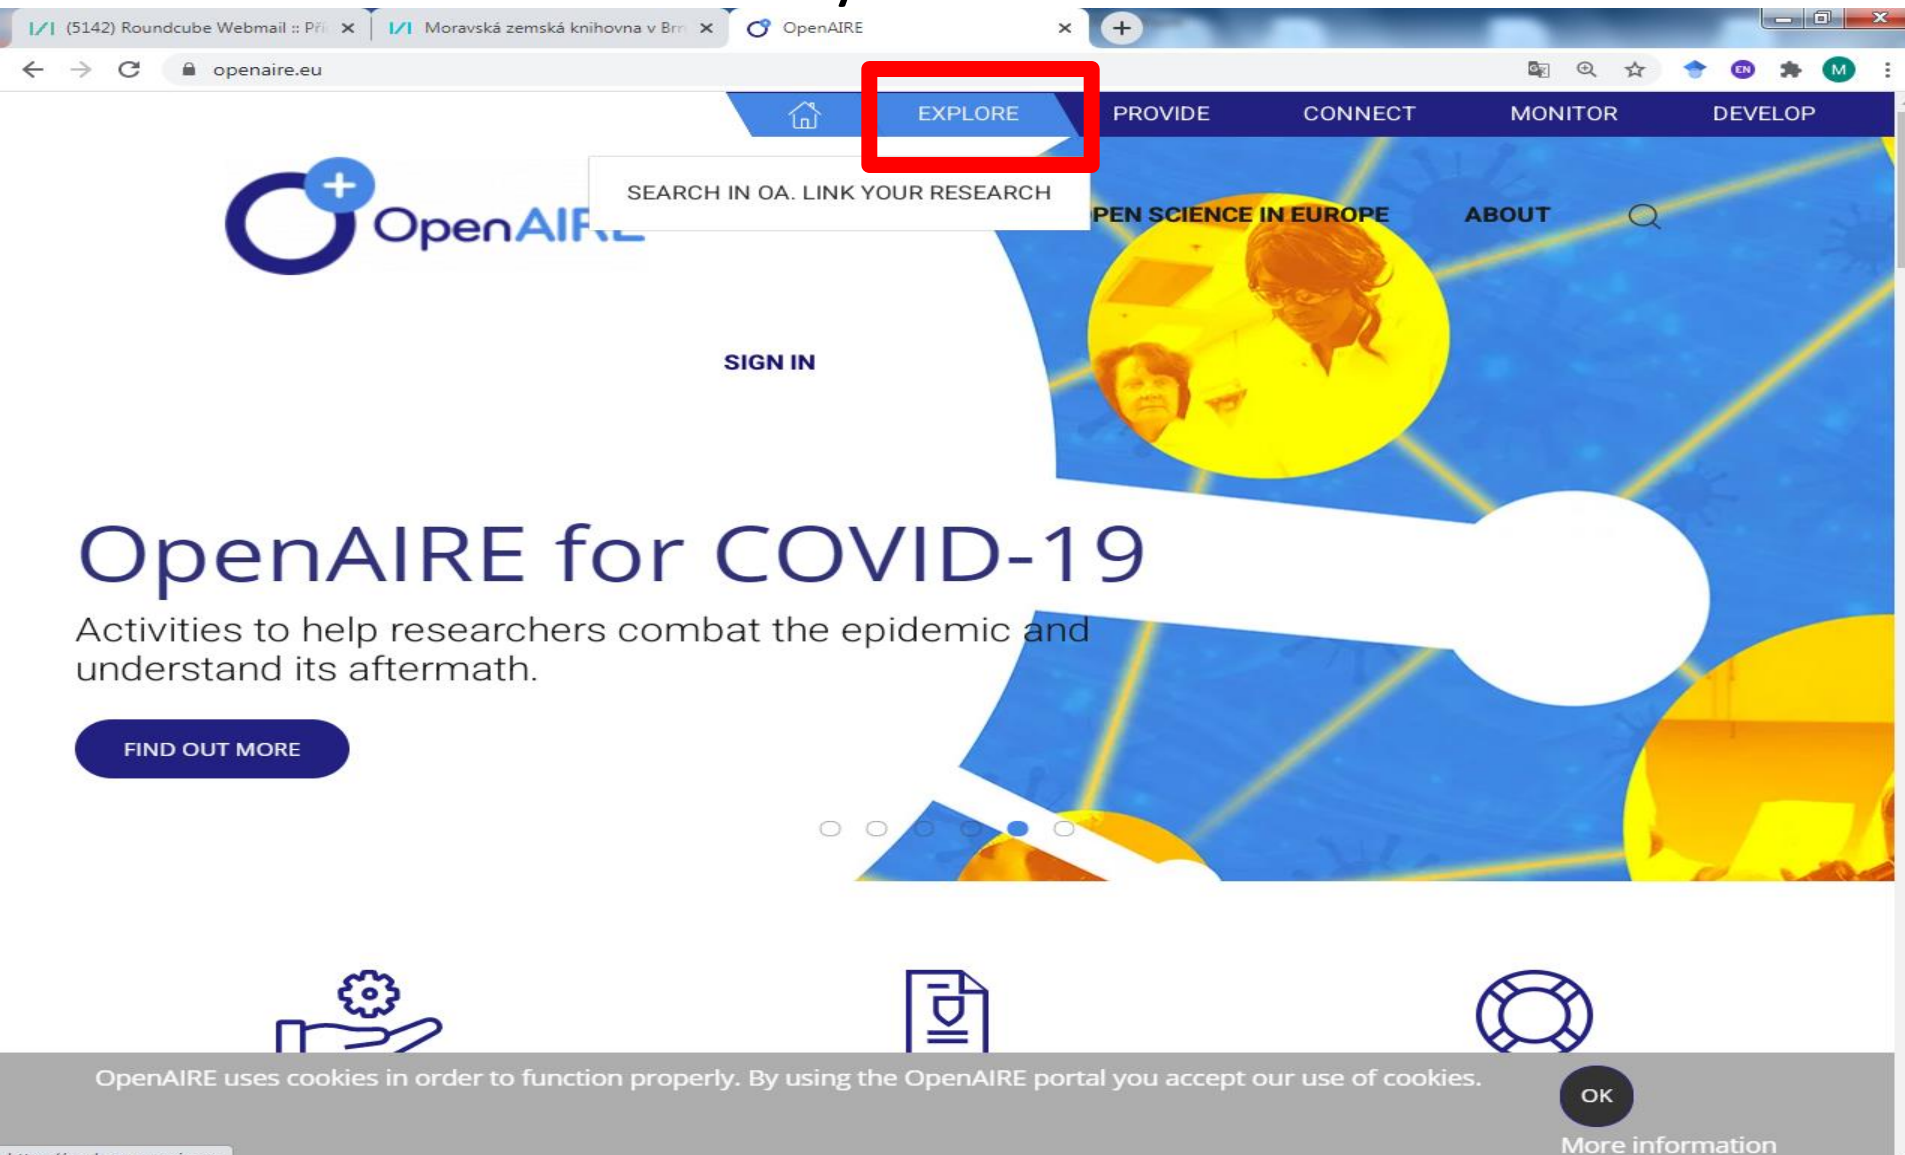

- Není k dispozici help pro vyhledávání.

Ze zkušeností vyplývá:

- K zadání složitého dotazu za využití booleovských operátorů je vhodné používat pokročilé vyhledávací rozhraní, nikoliv základní řešeršní masku.
- Lze psát hvězdičky pro pravostranné rozšíření, ale systém sám hledá další tvary slov, stačí napsat kořen slova.
- Je možné používat oboustranné horní uvozovky pro fráze (pevná slovní spojení).

# OpenAIRE

## Cesta k vyhledávací masce

The screenshot shows the OpenAIRE website interface. The browser's address bar displays 'openaire.eu'. The navigation menu at the top includes 'EXPLORE', 'PROVIDE', 'CONNECT', 'MONITOR', and 'DEVELOP'. The 'EXPLORE' button is highlighted with a red rectangular box. Below the navigation bar, the OpenAIRE logo is visible on the left, and a search bar with the placeholder text 'SEARCH IN OA. LINK YOUR RESEARCH' is positioned in the center. To the right of the search bar, there are links for 'OPEN SCIENCE IN EUROPE' and 'ABOUT'. A 'SIGN IN' button is located below the search bar. The main content area features a large banner with the text 'OpenAIRE for COVID-19' and a subheading 'Activities to help researchers combat the epidemic and understand its aftermath.' Below this text is a 'FIND OUT MORE' button. The banner also includes a circular image of two people and a large white speech bubble. At the bottom of the page, there is a footer with a cookie notice: 'OpenAIRE uses cookies in order to function properly. By using the OpenAIRE portal you accept our use of cookies.' and an 'OK' button. The URL 'https://explore.openaire.eu' is visible in the bottom left corner.

## Nastavení zobrazení výsledků

The screenshot shows the OpenAIRE search interface. The browser's address bar displays the URL: `explore.openaire.eu/search/find/research-outcomes?f0=q&fv0=honey%2520%2520product%*%2520market*&page=1&size=50&sortBy=&...`. The page header includes the OpenAIRE logo and navigation links: SEARCH, DEPOSIT, LINK, CONTENT PROVIDERS, and SIGN IN. On the left, there are filter sections: 'Access Mode (3)' with radio buttons for Open Access (221), Restricted (56), and Closed Access (3); 'Result Types (4)' with checkboxes for Publications, Research data, Software, and Other research products; and 'Year range' with input fields for 'e.g. 1800' and 'e.g. 2031'. The main content area shows search results. A red rectangular box highlights a dropdown menu for 'Results per page' with options 5, 10, 20, and 50. The 'Sort by' dropdown is set to 'Relevance'. Below the dropdown, it says 'PAGE 1 OF 6'. A 'Download Results' link is visible. The first search result is a 'Publication' titled 'Survey of consumer preferences on the bee product market. Part 1. Honey', marked as 'OPEN ACCESS'. It lists authors Elżbieta Kopała, Ewa Kuźnicka, and Marek Balcerak, and provides the DOI: 10.22630/aas.2019.58.2.16. The publisher is Warsaw University of Life Sciences – SGGW Press.

### SUMMARY

#### Abstract

The global honey market has witnessed constant growth over recent decades, especially in Asian regions. In recent years, the increase in export flows of this product throughout the world has raised the issue of the lack of international import standards and regulations, making trade susceptible to variables that are not only economic, but also social or political. The objective of this study is therefore to explore, using the econometric methodology of gravity models, what the determinants of the international honey trade are, both economic and socio-cultural, and to verify whether a niche market, such as the one being examined, is influenced by these covariates...

## Pokročilé vyhledávání

The screenshot shows the OpenAIRE Advanced Search page. The browser's address bar displays the URL: `explore.openaire.eu/search/advanced/research-outcomes?f0=q&fv0=Cuba%2520fiscal&f1=q&fv1=&page=1&size=10&sortBy=...`. The page features a navigation bar with tabs: EXPLORE, PROVIDE, CONNECT, MONITOR, and DEVELOP. Below this, there are links for SEARCH, DEPOSIT, LINK, CONTENT PROVIDERS, and SIGN IN. The main search area is titled 'Advanced search in' with a dropdown menu set to 'Research outcomes'. The search form includes a 'FIELD TO SEARCH' dropdown (currently showing 'Subject'), a 'TERM' input field (containing 'Cuba'), and a 'and' operator dropdown. To the right of the search form are three circular buttons: a minus sign, a plus sign, and a plus sign. A red arrow points from the text 'Přidávání a ubírání polí.' to the plus sign button. Below the search form is a 'SEARCH' button. On the left side, there is a 'Filters' section with a dropdown menu (currently showing 'Open Access') and a list of filters: Access Mode (1), Research Type (4), and Year range. A red arrow points from the text 'Výběr pole.' to the 'Field to search' dropdown menu. The search results section shows 6 research outcomes, with the first one being a publication titled 'Sostenibilidad fiscal. Prioridad en la agenda de transformaciones del modelo económico cubano' by de los Santos, Vilma Hidalgo; Reyes, Yaima Doimeadiós. The publication is marked as 'OPEN ACCESS' and 'ENGLISH'. The abstract mentions that the work focuses on fiscal sustainability in the context of new transformations in Cuba, using two methodologies to evaluate the fiscal position. One methodology is based on the Hakkio and Rush (1991) model for the period 1981-2014.
