Cesta k vyhledávací masce

The screenshot shows the OpenAIRE website interface. The browser address bar displays <https://beta.openaire.eu>. The navigation menu includes: [PARTICIPATE](#), [SEARCH](#) (highlighted with a red circle), [MONITOR](#), [SUPPORT](#), and [OPEN ACCESS](#). A dropdown menu for [SEARCH](#) is open, listing: [Publications, data, projects,](#) (highlighted with a red circle), [Data Providers](#), and [General information](#). The main content area features a large yellow banner with the text: **Observatory of Europe's**
...research output
...OA infrastructures
...policies. Below this is a section for **Open Access Week 2015!** with a logo for **OPEN International ACCESS WEEK** and the text **OPEN FOR COLLABORATION** and **OCTOBER 19 - 25, 2015**. At the bottom, there are two columns: **RESEARCHERS** (Why Open Access. How to comply. What services to use.) and **DATA PROVIDERS** (How to make your content more visible. What to do to increase quality. How to join.).

COLLABORATION
OCTOBER 19 - 25, 2015

OpenAIRE supports and encourages open access via its infrastructure and services and will be actively participating in the 8th International Open Access Week 'Open for Collaboration' with a series of webinars and spotlights on its services and resources. Our activities during Open Access Week 2015 will target researchers, research administrators, project coordinators and open access advocates. Look at the schedule to find out about what is offered for you!

Economics of Krishik Bandhu Drip Irrigation: An Empirical Analysis | Jalajakshi, C.K.; Jagadish, N (2009)

The impact of Krishik Bandhu (KB) drip irrigation has been reported on productivities, incomes and benefit-cost ratios of sugarcane, banana, chilli and cotton in 51 villages of Tamil Nadu, Maharashtra and Madhya Pradesh states. The crop productivities, incomes and benefit-cost ratios under drip irrigation method have been found far higher in all the crops and in all the selected regions of these three states compared to those under the conventional flood irrigation method. The KB drip irrigat...

OpenAIRE

Rozšířené vyhledávání

The screenshot displays the OpenAIRE search interface. At the top, the OpenAIRE logo is on the left, and navigation links for PARTICIPATE, SEARCH, MONITOR, SUPPORT, and OPEN ACCESS are on the right. The search bar contains the query "critical infrastructure" terror* and is set to "all words". A dropdown menu for search fields is open, showing options: all fields (selected), Title, Author, Publisher, and Subject. A red circle highlights this dropdown menu. Below the search bar, the "Results per page" is set to 10, also highlighted with a red circle. The "LIMITS - NONE" section contains several filter categories, each with an "edit" link: DOCUMENT TYPE, DOCUMENT LANGUAGE, FUNDER, FUNDING STREAM, FUNDING SUBSTREAM LEVEL 1, FUNDING SUBSTREAM LEVEL 2, PUBLICATION DATE, ACCESS MODE, and DATA PROVIDER. On the right side, a "Search" sidebar lists various search results types: Publications, data, projects, ... (expanded), all, publications, research data, projects, people, organizations, data providers, Data Providers, and General information. At the bottom, there is a "Simple Search »" link and a "Publications" button.

THE INTERGENERATIONAL CONTENT OF SOCIAL SPENDING : HEALTH CARE AND SUSTAINABLE GROWTH IN CHINA

Fitoussi, Jean-Paul; Saraceno, Francesco (2008)

Publisher: HAL CCSD

Languages: English

Types: Article

Subjects: [SHS:ECO] Humanities and Social Sciences/Economies and finances, social spending, Chinese economy, [SHS:ECO] Sciences de l'Homme et Société/Economies et finances, saving gluts, sustainable growth, health care, [SHS:ECO] Humanities and Social Sciences/Economies and finances

Show additional classifications +

The paper endorses the thesis that current macro imbalances are partly due to an excess of household savings in China, whose origin is to be found among other things in household uncertainty about the provision of public services like health care, pensions and education. Focusing on health services, because of their priority in the concerns of the Chinese people, we describe the recent trends in the provision of health care. We then argue that social spending by the government may have important intergenerational content, in that it allows higher private spending, lower inequality, higher levels of human capital and the like. All these factors are related to the potential growth rate of the economy. We conclude that a more important role of the government in the sector of public services, and in particular of health care, may help reduce the possibility of future bottlenecks, and hence help keeping the Chinese economy on a sustainable growth path. We conclude the paper by an assessment of the current debate on how to reform the system, and we advocate universal publicly funded basic health coverage.
