Základní vyhledávání

The screenshot shows the OpenAIRE website interface. At the top, there is a navigation bar with links: Soubor, Úpravy, Zobrazit, Oblíbené položky, Nástroje, and Nápowěda. The main header includes the OpenAIRE logo and a navigation menu: PARTICIPATE, SEARCH, MONITOR, SUPPORT, and OPEN ACCESS. The main content area features four large boxes: RESEARCHERS, DATA PROVIDERS, RESEARCH ADMINS, and FUNDERS, each with a brief description of their role. On the left, there is a section titled 'OPEN FOR COLLABORATION' with a date 'OCTOBER 19 - 25, 2015' and a paragraph of text. A red arrow points from the top left towards the search bar at the bottom. The search bar is highlighted with a red oval and contains the text 'crash* and traffic'. Below the search bar, there is a link 'More search options'. At the bottom, there is a footer with the text '@OPENAIRE_EU' and 'Written on Monday, 06 November 2017'.

OPEN FOR COLLABORATION
OCTOBER 19 - 25, 2015

OpenAIRE supports and encourages open access via its infrastructure and services and will be actively participating in the 8th International Open Access Week 'Open for Collaboration' with a series of webinars and spotlights on its services and resources. Our activities during Open Access Week 2015 will target researchers, research administrators, project coordinators and open access advocates. Look at the schedule to find out about what is offered for you!

STUDY OF EMERGING TRENDS OF PROFESSIONAL EDUCATION IN NUCLEAR FAMILY

Dr. Paras Jain*, Soman Malaiya (2016)

Parents have become more concerned for child. In nuclear families parents pay more attention on child education; they plan school, college, career after discussion with field experts. Such consciousness increases their intention towards quality education. Parents belonging nuclear family pay more money rather than conventional family. They have financial plan also regarding study. In other families attention on child is distributed and unable to concentrate child only. This social trend influ...

THE INTERGENERATIONAL CONTENT OF SOCIAL SPENDING : HEALTH CARE AND SUSTAINABLE GROWTH IN CHINA

Fitoussi, Jean-Paul; Saraceno, Francesco (2008)
Publisher: HAL CCSD
Languages: English
Types: Article
Subjects: [SHS:ECO] Humanities and Social Sciences/Economies and finances, social spending, Chinese economy, [SHS:ECO] Sciences d'Homme et Société/Economies et finances, saving gluts, sustainable growth, health care, [SHS:ECO] Humanities and Social Sciences/Economies and finances
[Show additional classifications +](#)

The paper endorses the thesis that current macro imbalances are partly due to an excess of household savings in China, whose origin is to be found among other things in household uncertainty about the provision of public services like health care, pensions and education. Focusing on health services, because of their priority in the concerns of the Chinese people, we describe the recent trends in the provision of health care. We then argue that social spending by the government may have important intergenerational content, in that it allows higher private spending, lower inequality, higher levels of human capital and the like. All these factors are related to the potential growth rate of the economy. We conclude that a more important role of the government in the sector of public services, and in particular of health care, may help reduce the possibility of future bottlenecks, and hence help keeping the Chinese economy on a sustainable growth path. We conclude the paper by an assessment of the current debate on how to reform the system, and we advocate universal publicly funded basic health coverage.
